AMLS

Sponsored by the National Association of Emergency Medical Technicians (NAEMT) and endorsed by the National Association of EMS Physicians (NAEMSP), AMLS offers a "think-outside-the-box" method of assessing and managing a patient in medical crisis.

It emphasizes using scene size up, interactive group discussion on potential treatment strategies, history, and probabilities in diagnosing a patient's medical problem. AMLS implements an initial assessment-based approach that progresses to a diagnostic-based approach to develop a treatment plan for a specific medical condition. The interactive/case based lectures include the following topics: Patient Assessment, Airway Management, Assessment of the Shock Patient, Dyspnea/Respiratory Failure, Chest Pain, altered Mental Status, and Abdominal Pain. Teaching stations follow the associated lectures each day.

September 19-20

0745 - 1700

Genesee County Fire Training Center

**only
\$90**

This program is offered at this cost only ONCE and includes the book, registration fee, and lunch
