

**Orleans County Volunteer Fire Police Association's 2008 Workshop.  
Anyone and Everyone is Invited. Please Attend!**

**Improving Response Scene Safety for Firefighters and Emergency  
Personnel Workshop!**

**This workshop will help fire officers:**

- Interpret state laws that grant fire police officers their authority.
- Identify the procedures a person must follow to become a member of a fire police squad.
- Understand the general duties of a fire police squad.
- Recognize the mental and physical requirements necessary to serve as a fire police officer.
- Realize the importance of properly equipping fire police with the necessary tools to effectively and safely carry out their duties.
- Use fire police effectively in incident command or incident management situations.
- Identify ways in which fire police can help increase safety at everyday alarms.
- Appreciate the importance of training as a necessary part of the fire police squad and the fire department as a whole.
- Prepare fire police members for interacting with the media.
