WANTED Photographs for 2007 Fire Training Catalog

The Office of Fire Prevention and Control is seeking photographs for the 2007 NYS Emergency Responder Training Catalog which will be published in July. The various production aspects are currently in process. As in the past, we have a need for photographs covering all aspects of fire service activity – incidents, training drills, public education programs – that show the fire service in ACTION. Shots of apparatus or firefighters standing around don't tell the story!

The following criteria will be used for final selection:

- firefighter safety (full SCBA, gloves, etc., when appropriate);
- quality of photo (sufficient light, contrast, focus);
- relevance to fire service activity;
- uniqueness of captured image.

Please submit photos electronically as individual JPGs (not embedded in a document or photo program) either on a CD or emailed. The resolution should be a minimum of 300 dpi. Please identify your e-mail with your name, affiliation, address and phone number. If the photographer is other than yourself, please give us the name of the photographer and department affiliation. This information is for the photo credit page. The photos are not captioned, so there is no need for descriptions.

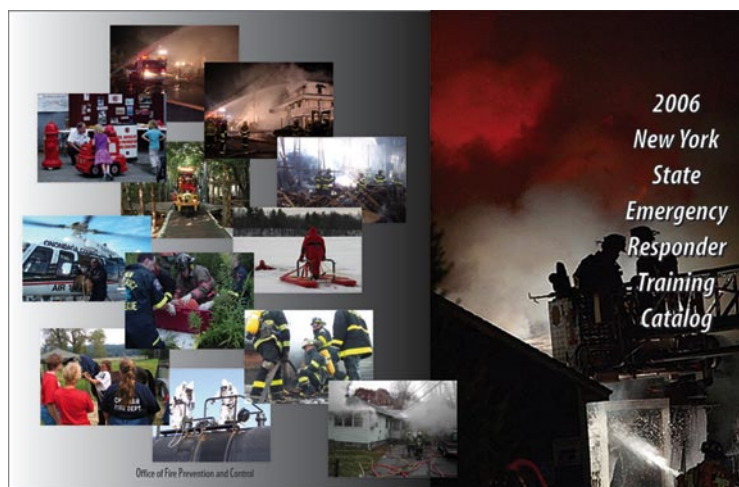

Deadline for filing is April 30.
