

I am pleased to announce that **WNY Emergency Vehicle Solutions** is now open for business! WNY EVS specializes in installing Emergency Lighting and Equipment (Sirens, Radios, Custom Consoles, Etc.) in Response Vehicles, Professional and Personal.

WNY EVS also does Installations for Utility Vehicles  
**Ask about our Snow Plowing Package**

WNY EVS will make sure your vehicle is seen no matter what situation it is put in.

From outfitting an entire Chiefs Response Vehicle to installing a blue light and scanner, WNY EVS will go beyond your expectations by making the final product look like it came right from the factory.

WNY EVS will go the distance and perform your installation onsite if necessary. We will work with you or the agency during the installation process and provide you with a functioning "turn key" vehicle.

Reduce your down time by having all your vehicle equipment needs performed by a single installation provider.

**Email today for further information or to request a quote.**
